

THE POINTER CLUB OF SCOTLAND

ID 1307

OPEN STAKE FOR POINTERS AND SETTERS
DEDICATED TO THE MEMORY OF

LADY JEAN FFORDE

August 2nd 2018

AT DORBACK ESTATE

By kind permission of Jean-Michel and Jerome Gaston Rebilly

Kindly Sponsored by:

OUR GREATEST AMBASSADOR

Lady Jean was president of the Pointer Club of Scotland since it was founded in 1978.

She was the club's greatest ambassador.

The Isle of Arran pointers were amongst the first to be registered with The Kennel Club, and feature in the Champion Stake roll of honour, the country's premier event for Pointers and Setters.

Lady Jean was born in Edinburgh in 1920 to James Graham, the 6th Duke of Montrose. She was the youngest of four children, and when growing up, the family lived for six months at Brodick Castle and six months at the Buchanan Estate which encompassed Loch Lomond and the Trossachs.

Lady Jean spent many happy days at the Pointer and Setter Field Trials. In her book, *Feet on the Ground*, Lady Jean explained:

"Isle of Arran June became the dog of my life – I adored her! Considering she was the first dog of any kind I had trained myself, she was a miracle. I trained her by 'phoning Patience Nicholson week by week and asking for instructions."

TROPHIES

The Open Stake winner will be presented with an oil painting of Lady Jean's Champion Stake winner FT CH Isle of Arran Larch.

The winner will keep the painting for life.

ISLE OF ARRAN TROPHY

For 1st in Open

PRESENTED BY THE LADY JEAN FFORDE.

CH TRANQUILLITY OF ST ALDWYNS TROPHY

FOR 2ND IN OPEN

PRESENTED BY MRS M. BLACKBURNE.

JUDGES

Nicola Harris
(2018)

Nicky has spent most of her life around working Gundogs particularly Pointers and Setters. Accompanying her father Terry, training and trialling from an early age, it was the arrival of a Gordon Setter in the Sparkfield kennel that caught her eye. This Gordon went on to produce Nicky's first dog and at the age of 15, with a 15 month old bitch, she entered and won her first trial, the GSFTS Open Breed Stake.

She was fortunate to be left Brenda Partridge's 'Clitters' affix to continue on with the valuable line. Nicky spends any spare time out on the fell training or shooting. Her enthusiasm for working dogs continues today, where she regularly competes in field trials, having handled Irish Setters and Pointers but it is the Gordon Setter that occupies her kennels for now.

JUDGES

Billy Darragh
(2085).

Billy Darragh started shooting over bird dogs in Ireland in 1968 and in the same year attended his first Field Trial. The following year he competed in Puppy Stakes in Northern Ireland handling the winner of the Ulster Irish Setter Club Derby Stake at his first attempt.

Since then he has bred, owned, trained and handled Setters and Pointers for shooting and Field Trials, having sacrificed the usual family annual holidays every year to be with his dogs. His ethos has always been that bird dogs should be first and foremost working dogs able to fulfil their real work on shooting days, the competitions and field trials have always been an enjoyable bonus. He started judging field trials in the mid seventies becoming an A panel judge in the early eighties.

Retiring from his day job in 2005, he and his wife Penny moved to the north of Scotland where they found a growing demand for pointer and setter work. For about nine months of the year he can be found either working his dogs for shooting parties on Grouse or Woodcock, or assisting gamekeepers and land owners in Grouse counts.

LADY JEAN FFORDE

A tribute by Marcia Clark

I first met Lady Jean way back in the seventies. She was a physically imposing figure at over six foot in height but there was a warmth and humour in her manner that put you at ease. She took me out to show me how pointers worked, or not, as was the case when her two young Pointers did what I am sure a lot of you have experienced and gave their handler a red face. Before heading for home she let the two 'oldies' out to relieve themselves and I was then treated to a beautiful display of classical groundwork leading up to a stylish point and back from FTCH Isle of Arran June and FTCH Isle of Arran Dice. I can still see them now. Lady Jean was described in the Times as having an 'energetic force for good', which I and many others will have experienced. She encouraged young people on many levels, from simply taking an interest in them and their dogs, to organising training days in order to bring new blood into the sport. She and Patience Badenach-Nicholson imported Ellebaeks Nikki from

Denmark, again to add new blood to the Pointer world. Nikki was found for Lady Jean and Patience by John Nash who was one of her wide circle of friends and mentors in the shooting and trialling world.

She impressed on me that the field trials are the shop window of the bird dogs and should provide the best display of stylish, efficient dog work. She also enjoyed winning stakes and was the last person to take home the impressive Brace Stake Trophy. In 1981 FTCH Isle of Arran Larch won the Champion Stake held at Bollihope. By this time Lady Jean only ran her dogs on the English circuit, so after the win we were left behind as the competitors moved North. It was a subdued celebration. Wherever we stayed Lady Jean would always entertain friends as often as possible so I have lots of memories of evenings spent in good and occasionally lively company. She had an amazing ability to fit in with everyone around her and she also appreciated a good dancer. Maurice Getty was her favourite dancing partner. Travelling with Lady Jean and the dogs was an experience not to be forgotten. She had high standards and the Volvo was fitted with a crash proof dog cage which her local blacksmith constructed to her specifications. Then there was a heavy duty canvass cover for the whole car, again specially made, which kept the dogs cool and relaxed in the summer evenings. Her gardener joked that if he were to die he wanted to come back as a Pointer in her care. All of her trial dogs were used in the shooting field, a few days on Arran and then some days as a hired team for commercial shooting. They made an excellent team. I was lucky to meet Lady Jean when I did and share a few years working with her and the Isle of Arran Pointers. The last time we met up was about three years ago in Inverary, when she told me that she had decided to stop driving after being pulled up for speeding in Lochgilphead. She sent the cheque for her fine to the chief constable instructing him to put it towards better road signage. Aged 92 and in her last Volvo!"

Marcia Clark

Lady Jean Memories

LADY JEAN FFORDE

An appreciation by Jon Kean

I first met Lady Jean in the 1970s – appropriately enough it was on the grouse moors in Perthshire. Janette and I were there just to spectate at the field trial and find out more about working Pointers and Setters. Lady Jean immediately put us at ease and explained what was happening at the trial. My one abiding memory from that day was the unusual footwear Lady Jean sported. It was a pair of sandshoes (baseball type) with the words “Skateboard City” emblazoned on the side. Her great friend Mrs Patience Badenoch Nicolson was there too.

Their guidance inspired me to find out more about working Pointers. From that day, friendship developed and I learned so much from Lady Jean and Patience about working Pointers.

After a while, I asked Lady Jean if it would be possible to purchase an Isle of Arran Pointer. My wish was granted! In historical terms, the Pointer kennels were among the first, if not THE first, to be registered by her grandfather at the Kennel Club when it was formed.

In 1983, I brought back from Arran two male puppies from Lady Jean’s litter, sired by Moanruad Aron (the late John Nash’s Pointer) and Isle of Arran Neillia (litter sister of the 1981 Champion Stake winner FT CH Isle of Arran Larch, handled by Mrs Marcia Clark). I reared Isle of Arran Micha and the brother Isle of Arran Gideon was bought by Duncan Davis from the North of England. The rest, as they say, is history. Gideon duly became a field trial Champion and Micha (pet name Duke) won the Champion Stake at Bollihope Moorin County Durham in 1989.

Duke was a fantastic Pointer for our shooting trips to Garrogie Estate, owned by Charles Connell in Invernesshire. Apart from his game finding ability, Duke’s great attribute was his stamina and endurance. He had the strength of 3 dogs.

Lady Jean and Patience were hugely influential people in the Pointer world. They were always willing to help and offer advice to anyone interested in working gundogs. One day, I was called aside for an informal chat. Lady Jean told me: “Patience and I both agree that you need to put something back into the sport. We think you should take on the role of Honorary Secretary of the Scottish Field Trials Association.” I was duly appointed in 1986 and have done the job of Secretary for the Pointers and Setters ever since.

Looking back, there were many famous Pointers with the Isle of Arran prefix.

The list is endless – Isle of Arran African Queen, Scotney Isle of Arran Regent, Isle of Arran Juno, FT CH Scotney Isle of Arran Jack, Isle of Arran Minoru, FT CH Isle of Arran Dice, Isle of Arran Lilly. Lady Jean’s favourite was FT CH Isle of Arran June, a beautiful orange and white bitch. In Lady Jean’s memoir, she wrote: “June became the dog of my life – I adored her! Considering she was the first dog of any kind I had trained myself, she was a miracle. I trained her by phoning Patience Nicolson week by week, and asking for instructions.”

Lady Jean was President of the Pointer Club of Scotland since it was founded many years ago. She had many, many interests outwith the world of field trials. She was a keen gardener, for example. Her parents brought back many rare plants from their trips throughout the world. On our visits to Strabane, her home at Brodick, Lady Jean gave us a guided tour of the gardens. On one visit, Lady Jean told us she would be sending her friend to collect us from the ferry at Brodick. The friend just happened to be Richard Todd, the Oscar-nominated actor best known for war dramas like *The Hasty Heart*, *The Dam Busters* and *The Longest Day*.

She was also involved with the RNLi and the Red Cross. She was an artist. Lady Jean wrote fascinating memoirs – *Castles in the Air and Feet On the Ground – From Castles to Catastrophe*. In those books, we discover she spent part of her life in India, Palestine, Sierra Leone, Northern Rhodesia and of course her beloved Isle of Arran. It was at the Government Code and Cypher School at Bletchley Park that Lady Jean joined the army of women who cracked the German code to save countless lives and shorten the war by at least two years.

Lady Jean’s mother was very keen on taking cine films of life on Arran, which included stalking and shooting over Pointers on the island from

the 1930s onwards. A couple of years ago we spent a lovely afternoon in Strabane viewing some of the reels of film, and they are fascinating to watch.

Lady Jean sent me a gift of the book called *Training Setters and Pointers for Field Trials*, by Professor John Beazley, Alf Manners and Arnold White-Robinson. It is signed : “To Jon. Wishing You every luck in field trials with your puppy. Jean Fforde 1981.”

I have used this book as a guide for seminars ever since.

In 1982, Lady Jean asked me to show her Champion Stake winner, Larch, at Crufts in London. This I duly did and was thrilled when the Judge Mrs Kitty Edmondson awarded a prize to Larch. Unbeknown to me, Lady Jean’s best friend , Princess Antoinette of Monaco, was a surprise visitor at the ringside at Crufts.

I will always have great memories of Lady Jean. Our last visit to Lady Jean was in July 2017. She was in good spirits and very keen to hear news from the world of Pointers.

RIP Lady Jean,

Jon Kean.
